✍ The Mahomedan Year is Lunar.—The Months consist alternately of twenty-nine and thirty days. To the last Month, an intercalary day is added eleven times in a period of Thirty Years. These are called abounding Years, and consist of 355 days; the common Year being 354. These abounding Years are the 2d, 5th, 7th, 10th, 13th, 15th, 18th, 21st, 24th, 26th, 29th. Thirty-two of our Years are nearly equal to thirty-three Mohammedan Years.

The Years marked thus \*, are the Intercalary and Bissextile Years in the Mohammedan and Roman Calendars.
